

ABOUT THE INSTITUTION

Karpagam Institute of Technology is incepted with the vision of providing cutting edge technical education and creates proficient engineers, who will add newer dimensions to the Technology Revolution and thereby steer the Global Economic Growth as a whole. The institution is endowed with excellent infrastructure and a dedicated team of faculty members devoted to train students to meet the growing needs of the society. The institute is situated on NH 47, along the new L&T bypass with a sprawling campus area having easy access from various points on the city.

ABOUT THE DEPARTMENT

The Department of Electrical and Electronics Engineering was started in the year 2008. It offers Undergraduate Program Recognized by Anna University of Technology, Coimbatore. The department has been constantly producing eminent engineers with high innovative skills. The department has modernized equipments in Electrical Machines, Control System, Power Electronics, Electric Drives, Digital Signal Processing and Power System simulations labs. The department has competent and committed faculty team to enhance the capability of students.

ABOUT THE TRAINING

Artificial Intelligence (AI) is the study of how computer systems can simulate intelligent processes such as learning, reasoning, and understanding symbolic information in context. AI is inherently a multidisciplinary field, and draws upon work in algorithms, databases and theoretical computer science. To address the current state of play in global research and development and issues to provide valuable information on emerging applications and market trends in the field of Artificial Intelligence, Neural Networks, Fuzzy, Genetic Algorithm and optimization techniques including research problems of these latest innovations. The workshop will provide platform to an in-depth discussion on and the various challenges in implementing.

RESOURCE PERSONS

The session will be handled by experts from other reputed institutions.
